

## Letter to All Citizens of Monticello City

January 30, 2025

Dear Citizens of Monticello,

We hope this message finds you well. As we move through the winter season, we want to remind everyone of a couple of important matters that will help keep our community safe and sustainable.

**Fire Safety:** We are currently experiencing a particularly dry winter, which means that the risk of wildfires is elevated. We ask all residents to take a moment to assess their properties and address any tall weeds or grasses that have grown throughout the year. Keeping those areas trimmed and clear is an important measure to reduce fire hazards and protect our community. It is a small step that will have a significant impact in preventing potential fires as well as beautifying the community.

**Water Conservation:** We would also like to remind everyone to be mindful of water usage during this time. Our winter snowpack levels have not yet reached the point we would like to see, and the dry conditions may affect our water reserves. Please be conscious of your water consumption, especially with outdoor watering and unnecessary usage indoors. Small changes, like shortening showers, and fixing leaks, can help ensure we continue to have adequate water for all.

We appreciate your cooperation and understanding in these matters. Together, we can help safeguard our community's well-being during this dry season and beyond. If you need more information or have questions, please reach out to the City Office by phone 435-587-2271 or stop by the office.

Thank you for your continued support.

Sincerely,

/s/Bayley Hedglin  
*City Mayor*

/s/Nathan Chamberlian
